To Whom It May Concern,

On behalf of the Arkansas County Youth Growth & Development Program, we are pleased to provide this letter of review for Village Public Health regarding their facilitation of the Vibe Safe Tour at DeWitt High School in May 2025.

Village Public Health delivered an engaging and impactful presentation focused on real and honest conversations surrounding sexual health and youth decision-making. Their team presented current trends and relevant statistical data specific to Arkansas County, ensuring that students understood the direct impact within their own community.

The session addressed critical topics including healthy versus unhealthy relationships, personal boundaries, understanding what is safe, recognizing consequences, and making informed choices. The information was delivered in an age-appropriate, professional, and culturally responsive manner that created a safe environment for discussion.

Students were inquisitive, attentive, and actively engaged throughout the presentation. Many demonstrated a sincere interest in learning more about how to maintain healthy relationships and make safe, responsible decisions that positively impact their future.

Village Public Health's commitment to youth education and preventative health aligns strongly with our mission to empower young people through education, awareness, and positive development opportunities. We appreciate their partnership and look forward to continued collaboration in serving the youth of Arkansas County.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jاليا Wyatt'. The script is cursive and fluid, with the first name being written in Arabic script.

Jاليا Wyatt, MSW
Arkansas County Youth Growth & Development Program Coordinator
